

Hi, I'm Anushka Shaw.

First-Year Computer Science(IT) Engineering Student | Innovator in AI & Blockchain

Welcome to my digital portfolio! I am a B.Tech CSE(IT) student at MIT Academy of Engineering (MITAOE) in Pune with a strong passion for Generative AI, Data Analytics, and solving real-world problems through technology. Explore my projects, hackathon wins, and leadership experiences below.

About Me

Dedicated Computer Science(Information Technology) Engineering Student at MITAOE

I am a dedicated first-year Information Technology Engineering student at MITAOE, graduating in 2029. My technical journey is driven by a deep curiosity for emerging technologies like Artificial Intelligence, Blockchain, and GenAI.

Beyond academics, I am highly active in college technical clubs. I serve as a Technical Member for both the CIPHER IT Association and the GeeksforGeeks (GFG) MITAOE Chapter, where I have organized 24-hour hackathons, hosted tech guest lectures, and developed automation scripts for club operations. Outside of tech, I am an active dancer, a debater, and a language enthusiast currently learning German and Italian.

Programming

Python
